

proper source for capitalization involving enter-prise and risk, is the surplus of the larger incomes. With capitalizatalization, industry stagnates. To penalize these incomes, in excess of their fair con-tribution to the

necessary public revenues, is deprive industry of its most esse tial fuel. That is to say, these things are so under capitalism. The socialist, who wishes to under mine our present capitalistic civil ization, in the interest of substituting what he thinks would be a better one, may logically opposed the principle of the proposed change. No one else should.

A MERICANS in Paris celebrated the Fourth of July by a re-ception in the new American Emin France. Ambassador Herrick, by advancing the money himself during a period of low exchange, withwaiting for the slow processes of the American Congress, got the house for \$200,000, though its original cost was much more.

It is a good house, but no better than much poorer nations have thought it a good investment to supply for the purposes of their embassies, and no better than we ourselves have expected our ambasadors to supply at their own expense. Henceforward, our Ambassador to France will at least have a house to move into when he reaches Paris, and will not have to spend twice his salary for rent.

erated for less than several times the salary? The present salary, just as salary, may be high enough. gress. But if the recipient of it is consalary will not run, he needs an house. We do that for the president, because we understand the nesday. understand the same situation re- window. garding them.

they do not read books. So they picture America as a land of billionaires, "vamps" and cowboys, where the most lurid things happen in the stupidest ways. And these millions include Rusisan peasants and Chinese coolings whom the bolsheviks warn Indian ryots, who learn that thus the sahibs live at home: impres- 197 to the United States. the sahibs live at home; impressionable Japanese, whom demagogues might stir to harm; the savages of many a remote isle, whose only glimpse of civilization is on the screen; and, last but far from least, the hard-working, impoverished masses of our debtor lower, that out of their poverty they may increase our abundance.

Does it pay?

One-Eyed Flyer Eager to Start On Ocean Flight

PARIS, Aug. 3.—Francois Coli French ace, is convinced that he and Paul Trascon will succeed in proposed non-stop flight from Paris to New York, the end

of August. The one-eyed flyer, who will be accompanied by the one-legged Trascon, told the United Press today that "we have the necessary will power and energy," while "the essential thing is that the motor show no more weakening than we

"It will not be a very great peril," he commented, dryly, "for once above the ocean we must not even think of landing on the water as this would be about tantamount to death.

"We expect to make the flight in 28 to 30 hours. It is only necessary to concentrate on reaching New York and to do everything to

that end." It is expected that the pair will take a route over England, Ireland, New Foundland to New York.

COOLIDGE ENTERS THIRD YEAR AS PRESIDENT ON GREAT POPULARITY WAVE

(By United Press) SWAM' TT, Mass., Aug. 3.-Calvin coolidge today entered his third year as president of the United States, apparently on the crest of a ris ing wave of popularity unequalled, his friends say, since the era of "good feeling" in the unopposed administration of President Monroe, a century ago. Two years ago, in the early hours of the morning, President Coolidge was sworn in by his father, a justice of peace, in his father's home in the Vermont Hills. President Harding had died suddenly in San Francisco a few hours earlier, and Vice President Coolidge emerged from obscurity to one of the most power-

positions in the world. His friends say that in his two years as president, Mr. Coolidge has captured the imagination and support of the American people as no president has done since Lincoln.

His watchword "peace and prosperity." The slogan upon which he ran for reelection was "Keep Cool With Coolidge." His success probably can be gauged best by his landslide victory last

Mr. Coolidge has become the actual leader of the Republican party since he became president. His friend and cam paign manager, William Butler, is chairman of the party. The man who preceded Butler, Frank T. Adams, of lowa, called at the summer White House, where the president is spending a two months' vacation. The visit was generally taken as an indicator of a new harmony within Republican ranks and possibly as a victory for the Coolidge policy seek-ing to bring the United States into the world court. Mr. Coolidge has made world court adherence a leading feature of

his administration,

Woman Asking Protection Is Shot Dead

LOS ANGELES, Aug. 3.— Shortly after she had ap-pealed for protection from her husband, Mrs. Sidney Adams, 25, was found shot to death in her home. Police were looking for the husband today. Neigh-bors told officers they saw

Adams flee from the house after the shooting.
The couple had been sep arated, and Adams was attempting a reconciliation, it was said. Mrs. Adams refused to renew the conjugal partnership, and was shot down in the ensuing quarrel, according to the police version of the tragedy.

MATTOON, III., Aug. 3.-Cora Stallman was Miss "queer" and may have written threatening and offensive letters to herself, according to an intimate friend of Mrs. Anna Seaman, sister of the woman whose body was found in a cistern on the Seaman farm.

Death Notices

A WORD OF COMFORT
God does not threaten and coerce us: He lures us, by manifold evidence of His love, to
trust His guidance and to depend upon His strength.
You can not alter the process
by which your dear ones pass
on into the higher life, but you
can fit yourself to so live that
"death" is but an incident in a
continuous progress toward a
more glorious existence, into
which you shall enter when the
day's work is done.

SPEAKER EULOGIZES BRY AN IN ADDRESS DELIVERED AT PARK MEMORIAL SERVICES

With more than 3000 persons present, memorial services were held yesterday afternoon in Birch park for William Jennings Bryan. The principal speaker was Horace Head. Head began his talk by comparing the life of Simeon the Saint, a young monk, who climbed to the top of a column in Italy and remained there for 30 years in prayer, with that of

"Simeon the Saint harmed not one, but he did no good," said head. "Colonel Bryan was not cally religious, but did a great deal for mankind. He lived to see many of the reforms, for which he fought, become realities.

"When Bryan went about doing the respective of toyation and of causing the same of toyation and the same civil rights as man, by extending to her the right of the same civil rights as man, by extending to her the right of the same civil rights as man, by extending the same civil rights as man intelligent human being, entity the same civil rights as man intelligent human

Bryan went about doing good. He was one of the first to urge that women be given the burdens of civil government equal rights with men. He was was another reform for which he one of the first to advocate the taxation. At a time when it was suicide for a man in public life to advocate prohibition, Colonel advocate prohibition, The advocate prohibition, Mr. Bryan

speaker. "He realized that, while bition in all political parties to rightly, church and state had been vote only for candidates who are separated in America, nevertheless, he felt that nothing unreligious should be taught in the Purity of Life.

the uplifting of humanity." of the First Baptist church, presided at the meeting. Prayer at the opening was offered by the Rev. Moffett Rhodes, pastor of the Memorial Methodist Spurgeon Memorial Methodist church. The Rev. Will A. Betts, paster of the First Methodist church, read the Bible verse which had been repeated as the body of Bryan was being lowered into the

A program of musical numbers was given. Announcement was made that union church services will be held in the park every Sunday afternoon at 5 o'clock, ending with the September 6 meeting. Following, in part, is the address delivered by Mr. Head:

"The traveler in southern Italy, Sicily and parts of anicent Greece, frequently sees in some field or deserted place a broken arch or

monestry, known as Simeon the Syrian, fearing that he would not be able to keep the vows he had that theory of evolution which eliminates God as man's Creator.

"If any there be who think that in prayer. At nightfall a monk from the monestry brought a basket containing a jar of goat's milk and a loaf of black bread, which

was drawn to the top by a rope.
Lives For 30 Years
"The next day the same program was repeated, standing in worship of God at sunrise, mid-day and sunset, and the rest of the time seated on that capstone in silence and bowed in humility. Thus did he live, day after day, month after month, year after year, through summer heat and winter cold, through rain and wind, the world but not of it, for 30

born since Simeon reached the top of that pillar, bought the daily basket with milk and bread, no rope was lowered; he called aloud, knows no waking in this world. but there was no response. The next morning the figure of the rise to greet the sun with worship and prayer. His soul had gone to its Creator. And so they declared him a saint, and called him Saint Simeon Styliter.

"That was the ultimate of the monastic idea. Saint Simeon committed no sin, he was in the world but not of it; he did no wrong; but on the contrary, he did no good. That idea and that life were due

"This modern saint did not lead mere negative existence, but more negative existence, but mere negative existence, but mere negative existence, but mitting any question of personal was at all times doing his bit for advantage to warp his judgment. His profound religious convictions the Rev. Otto Russell, pastor led him into his last great struggle, which undoubtedly hastened his death. To him religion was no mere formal thing; the God of his fathers was in fact the Supreme Ruler of the universe, and anything which attacked religion was a blow at the very foundation of life it self. He saw all about him evi dences of a breaking down of re ligious faith and convictions; the increasing percentage of divorce the weakening of family ties; the increasing prevalence of crime the tendency toward a pleasure seeking, jazz-mad world, to the neglect of the realties and responsibilities of life

Looked For Cause. "Looking for a cause of these conditions and tendencies, he found at least a large portion of it in the teachings, by modern scientists and philosophers, of a madeserted place a broken arch or terialistic, Godless world. He real-column or a single marble pillar ized that the children of today are standing as a mute monument of man's progress during past and forgotten centuries. During the ting the evils he sought to cure was fifth century, there stood not far to instill the spirit of reverence from a certain monestry a single and religious conviction into the marble column 60 feet in height, with a capstone about three feet so far as possible, any teaching square; doubtless it had formed which would have a contrary ten part of some ancient pagan tem- dency. In order to make his efforts concrete and effective, he cen-"A certain young monk of that tered his fight on the teaching of

be able to keep the vows he had taken to abjure all worldly things Mr. Bryan participated in the Daythrowing a rope across the top of taken. To his mind the principles the column, managed to climb to involved in that trial were fundathe top. The next morning the peasants of the neighborhood were lieved that while we have properly surprised to see the figure of the separated church and state, and do monk seated on the top of that pillar, his head resting on his public schools, on the other hand knees, and with crednlous awe they declared that angels must have carried him to that lofty place. At is unreligious or anti-religious. In noon he rose, faced the east and the last address which he wrote, raised his arms in an attitude of it was with characteristic clearness adoration and prayer; then rethat he quoted from Mr. Darrow sumed his seat on the hard stone, with bowed head; and at sunset Chicago murderers tracing their he again stood and faced the east mental and moral condition to the effects of reading modern God-less philosophers. Equally characteristic of Mr. Bryan was his expression, in that address, of the fear that the agnostic scientists had lost hold on the Rock of Ages in studying the age of rocks.

Fought For God. "So this great modern Christian crusader entered the lists to fight for the God of his fathers with the profound convictions and fearless spirit that have characterized every great reformer. During the Dayton trial he was subjected to a most severe physical, nervous and mental strain which proved too through sunshine and storms in much for his great, tired heart. When the victory was won and his last address was safely "At last, on a certain nightfall, hands of the printer, he said: when a young monk who had been think I will take a good long

SOCIETY FOLKS WEAR AT EASTERN BEACHES

BY BETSY SCHUYLER SOUTHAMPTON, N. Y., Aug. 3.—Southampton has to play second fiddle to Newport but it is much livelier than the Rhode Island watering place.

Southampton has fewer traditions and more fun.

Beneath the striped parasols that line the beach are vivid-hued costumes, wide-brimmed picure hats, bathing suits that might almost be ball costumes, and a kaleidoscopic effect of mo-tion and gaiety that is quite lack-ing at Newport where white prevails generally through the day.

In fact, the bathing costumes here become so much like the ones they wear in the Follies that there is propaganda under way there to limit the exposure and cover more of the female form divine.

Last week I saw a most attractive beach outfit made of two silk scarfs printed in futuristic designs in brilliant red, green, purple and black. It was worn with red bloomers and a red scarf. I say also some attractive ones of chintz and silk gingham, with parasols to match

Mrs. Kenneth O'Brien, the daughter of Clarence Mackay, is one of the Southampton colony who is always picturesque in her She usually wears a very large hat, with practically no trimming.

I saw her one day in a green ensemble with a wide-brimmed green hat that was very lovely with her fair skin and blue eyes. Most of her clother are plainly from Paris, and she wears them with a nonclalance and unconcern that many a debutante envies. The dog show and annual street Hostess to Dancing

fair held on the village green last week brought out many colorful costumes and the inevitable and unescapable prints that are

Mrs. Herman Dierks wore chic model of white and black checks with bands of white silk and a little brilliant red piping about the hem, collar and cuffs.

Mrs. James Lawrence Bruce was wearing a frock that indicated plainly where she stands on cated plainly where she stands on of the shortest of the anniversary of his the nonth the after-noon. Mrs. E. C. Phillips and Miss Bemus will have appetizing salad prepared for the guests while Mr. Phillips and Herschal Clayton have offered their services as mussle diggers in case any wish to partake of that seafood.

"Rankin Family" Surprises B. E. Switzler With Gay Party

Without having the slightest idea that he was to be the honored guest at a big surprise party, B. E. Switzler, general manager of Rankin Dry Goods Store heartily accepted the invitation of Mr. and Mrs. C. W. Chamberlain to accompany them to Balboa to view the tournament of lights.

The invitation also included his mother, Mrs. Switzler and sister, Mrs. Pearl Smalley. When the Chamberlains and Switzlers were passing through Newport, Mr. Chamberlain stopped at the Seathander of the Seathander of the Seathander of the Switzside apartments, telling Mr. Switz-ler that he wanted to see his sis-ter, who happened to be residing at these apartments.

at these apartments.

Meanwhile all the employees of the Rankin store, which has officially adapted the name as "Rankin Family" arrived at "Kiddie Coop," that attractive Newport Beach cottage of Mr. and Mrs. Herbert Rankin, which is just next door to the Seaside Apartments.

Word was passed to the Rankin A charming farewell party was given Friday evening by Miss was the incentive last week to a Willa Dunn at the home of Mr. Switzler accompanied by the delightful surprise party when a Chamberlains stepped out on the large number of her friends and board walk, the "Rankin Family" swooped down upon them with a grand "Surprise."

The party was given to Mr. Switzler to celebrate his two years with the Rankin firm.

Besides viewing the parade, entertainment for the evening included a huge bonfire which was built on the beach in front of the Rankin cottage. Here all the guests grouped themselves companied on the violin by Miss roasted weiners, marshmallows and Refreshments of ice cream and Mr. and Mrs. Herbert Rankin

Mrs. Estella Ewing, Mr. and Mrs. William Wyckoff, Mrs. Marie Fowler, Mr. and Mrs. Elmer Thompson, the Misses Ethel and Esther Coffman, Miss Anne Robertson, Mr. and Mrs. A. L. Merrick, Mrs. A. A. Lamaux and G. A. Lamaux, mother and brothers of the Merricks, who are visiting here from New Mrs. Effie M. A Word of Appreciation

38 Years Selling Only Good Clothes

THE WARDROBE

We are immensely satisfied and pleased with the amount of business done during our Semi-Annual Clearance Sale which closed Saturday. We thank our old friends who so loyally gave us their patronage. Also we gladly welcome hundreds of new patrons who have come to us. We will show our appreciation by renewed enterprise and energy, endeavoring always to give the best values obtainable anywhere.

We aim to give entire satisfaction to our customers in every respect—service, qualities and prices.

Thirty-eight years selling only good clothes is a pretty good guarantee that Uttley's is a good place to trade.

We hope on next Wednesday to welcome you in our newly remodeled and decorated store.

How About Washing that Palm Beach?

Beginning to look a little bulgy at the knees and wrinkly at the shoulders, isn't it-or maybe just a bit dusty?

Probably you've been thinking about having it washed "one of these days." Why not make good on the resolution now by calling us up today-before the good intention can slip your mind?

Our method of washing Palm Beaches brings back all the jauntiness and style your tailor built into them, and makes them as good again as the first day you put them on,

Bundle up those Palm Beaches today - use the phone. Our representative will call on the dot; we'll wash new life and cleanliness into your clothes, and have them back again quickly.

CONSERVATION OUR ONLY ALTERNATIVE

Orange, San Bernardino And Riverside County Folk Should Get Busy

J. W. Newell, of Placentia, is on the warpath-and he is making his own path. It leads all over the county-all over three counties. It leads into Santa Ana.

"I want to know," said Newell, "what and particularly WHEN we band program which is to be play-are going to do something more ed tomorrow night in Birch park than talk about the conservation The concert, dedicated to the civic luncheon clubs of the city, Tri-Counties Reforestation committee—which is in fact a water con-servation committee,—but I am Cianfoni to please them all. The famous "Poet and Pe not talking or acting in this mat-ter as a member of that commit-lection will attract many persons tee. I am talking and acting as a citizen of Orange county—one who Hunting Scene," will be played is interested in its welfare and tomorrow night. The band men who is concerned about his own

"The Tri-Counties committee," said Mr. Newell, "under the leadership of Francis Cuttle of Riverside, has done a good work. It has conserved water to a very considerable extent by spreading storm water on the gravel beds and sinking it into the underground reservoirs; but the biggest Wauldteufel. and best thing it has done is to prove conclusively that the storm waters can be conserved to a large Bucalossi. extent in this way. I take no credit to myself, for I have simply Round Table, Cianfoni. functioned as a member of that committee—the work has been done largely by the chairman of the committee, Mr. Cuttle.

"But the actual conservation of water in this way is but a drop in the bucket. What we ought to have done—and when I say we I mean the people of the three counties as a whole and not merely our committee, for we did all we could with the means at our command and the support we got from the people—was to begin 10 or 20 years ago, where we are trying to begin now, in a determined effort to conserve every

pervisors of this county are, and He is charged with writing lov to some extent other organizations letters to lonesome bachelors in are not getting anywhere at least we are not getting anywhere at money from many of them to par foot anough are doing what they can; but we

call a meeting of the leading citizens of the three counties and the best man we can find to head that association at a good salary, who will give his entire time to the management of this project of conserving the storm waters of the Santa Ana river. This must be done soon. At the rate we have been going, and organize some kind of water condone and must be done soon. At the rate we have been going, and at the rate our underground reservoirs are being drained, the old fashioned songs of long ago— which he won in life and also in his death.

Which he won in life and also in his death.

Mr. Rowell should remember ervoirs are being drained, the sentiments which never die," whole country will dry up and blow away before we ever accom-plish anything in the way of effective or comprehensive conser-

is to make a very simple mathematical calculation to find out of real stuff and to describe my where we will land. We are pump ing water out of our underground likes—the girl who is a good reservoirs a great deal faster than cook, with a loving disposition they are being replenished. The kind, and the sort that will make water level is lowering, lowering, lowering—and of course the time like. pansion of our industries our orextent that we are now and long have been using more water than, under existing conditions, is being conserved in our underground reservoirs. When they run dry, as they certainly will at the rate we are going, we not only cannot

"We are now nearing the end of one of our dry periods—the 12 year dry periods the engineers tell us about,—and when the wet period sets in we will have a lot of storm water, and unless we said save that storm water our case is hopeless. I know this is plain talk and that I will be criticized for it; but I believe it is absolutely necessary to talk plainly, to face the situation fairly and squarely without flinching.
"For the life of me I cannot

understand why the intelligent, far seeing, enterprising citizens of Orange, Riverside and San Ber-nardino Counties—especially those of Crange county-do not get together and get busy in an effective, forceful way in this matter.
Even under the most vigorous management and concerted efforts it will take months to perfect the plan and organize the machinery to carry it out-and then it will take several years to construct the

conservation works. 'We are hollering our heads off about parks and playgrounds and civic centers and auditoriums and streets and highways and everything under the sun. All these things are good and we ought to have them; but we won't need any of them unless we get more

and San Bernardino counties—
preaching the gospel of conservation until he gets the project vation with all my might, and tion until he gets the project vation with all my might, and yet did nothing to bring it about."

-kills Red Spider on Citrus Trees and Prevents Red Spider Wind Damage

When you spray with VOLCK the windward corner of your grove becomes as thrifty and productive as any other part. The hot winds that sometimes cause so much damage, cause you little concern. For VOLCK eradicates Red Spider and with it Red Spider Wind Damage.

The spider has no chance to sap the vitality of the leaves and the winds find the trees sturdy and vigorous, much better prepared to withstand the drying burning effect than trees where pest control has not been attempted or where other methods or materials have been used.

VOLCK kills the pest in all stages of development from the egg to the adult, and the trees remain free from spider over a surprisingly long period. We have been in groves where after spraying with VOLCK spider has not reappeared in more than a year's time.

VOLCK not only kills Red Spider, but all varieties of citrus scale including mealy bug and gives thoro cleanup in one application. It should be applied now while the Black Scale is young and the work can be done at least cost. VOLCK can be applied in warm weather when other materials would be out of the question because of the danger of burning.

bounding deep.

YOST THEATER

For the headline act on the next Association Vaudeville bill at the Yost theater Tuesday and Wednesday there has been chosen somewhat unusual feature, a male comedy quartette. The Knox Comedy Four is more than just a singing quartette. It is true that they sing, and sing well, but throughout their act has been woven a comedy plot that is said to be a riot from the entertainment standpoint. It is based on the idea of a singing teacher trying to pound vocal instruction into the cranium of a dumb pupil. The boys do some wonderful harmony singing in their vocal numbers mostly all of which are of the comedy variety.

Next in importance comes other distinct novelty in the La Petit Cabaret which is enacted by Mantell's Manikins under the direction of L. Ayres Mantell who has developed this art of entertainment to a well nigh perfect degree. Among the various numers which Mr. Mantell presents with his human-like manikins is an ultra fashionable cabaret including the musicians, performers, waiters, guests, etc., a real circus sideshow, a Russian Ballet, imitations of well known movie and comic strip characters, Roman gladiators, Spanish bull fight and many other more or less in tricate and difficult stunts.

For a genuine novelty surprise the palm must go to Sinde Dale and Dixie Delene, two musical comedy favorites who present "A Musical Comedy Surprise." a wealth of gorgeous stage settings and beautiful costumes there are few acts on the road that can equal let alone surpass them. Every now and then an act appears that has been developed into popularity as a result of war activities though most of these, unless especially capable have gradually vanished from the theatrical horizon. Not so, however, with W. C. Dornfield who was featured for two successful seasons with "Elsie Janis and Her Gang" while doing laudable entertainment work among the soldiers. This likeable young man fell into stage work as naturally as a duck takes to water with the result that he has continued independently since Miss Janis disbanded "Her Gang". With his "Trix and Chatter" he presents very clever and entertaining act consisting of magic and comedy chatter which combined with an irresistible personality makes him a favorite everywhere.

The show is rounded off with beautiful singing and musical number by O'Brien Sisters and Mack in which saxophones, piano singing and dancing com ine to make a most enjoyable

Little Girl Is Hit On Way to Sabbath School

BALBOA, Aug. 3 .- While on her way to Sunday school, lit-tle Dorothy Grill, 8-year-old daughter of Mr. and Mrs. Ernest Grill of 106 West Bay avenue, Balboa, was struck down by an automobile and badly hurt.

The litle girl had almost reached the church when the accident happened. It was while crossing the street to enter the building that she

To Dorothy the worst com-plaint for the accident was that it prevented her from keeping her regular attendance

at Sunday school.
Though she is under doctor's care now, she is not in any serious condition and her rapid recovery is assured. When she was struck by the car as she hesitated in crossing the street, her injury amounted to only bad bruises an examination revealed.

After Investigating ALL Makes of Electric Cleaners—We Chose

as it Cleans

as it Sweeps It BEATS...

In keeping with the Chandler store policy to present only the finest home equipment we selected the HOOVER Suction Sweeper after investigating all makes of cleaners.

While the Hoover possesses many, many points of superiority, its biggest advantages, be it remembered, are its patented ability (1) to beat, shake and vibrate destructive, embedded grit to the surface, (2) its ability to sweep thoroughly, to erect and brush straight all nap bent over or crushed by traffic. as well as to brighten colors and revive patterns, while (3) its powerful suction is removing the dirt-all these essentials of thorough cleaning being performed in one rapid, easy, dustless operation guaranteed to add years to the life and beauty of every rug that you own.

Before you make final decision to buy, see the HOOVER. A demonstration of this wonderful cleaner incurs no obligation.

be induced to buy more, and thus the consumption of oranges would So The Register went out among the retailers and packing

house men and produce dealers to see if it could find out all about this important matter. The first man interviewed was Hugh Gerrard, of the Alpha Beta

Gerrard and his brother operate five or six-well a whole lot of stores, and they handle fruit in all of them. Won't Pay Fancy Prices

"Oranges in California and Santa Ana are not a luxury," 8 said Gerrard, "consequently we can't get the prices for them that they do in the east. We have not the demand here. People can go in their back yard and get oranges and if they haven't a tree in their back yard their friends have. In the east, the dealer can put them in cold storage and bring out as needed. If the demand was great enough here, we could do the same thing, but people won't pay the price. Oranges must be handled in volume to be a paying proposi-

Jim Smith, fruit dealer at Gerrard's store, said: "We can't get No. 1 oranges and sell them for less than 80 cents a dozen. The trade doesn't want to pay that price. I can put No. 1 navels along side valencias and the people every time will take the valencias in preference to the No. 1 navel at the higher price."

"The people don't want the No. 1 orange," said F. C. Blauer, grocer in the W. H. Spurgeon building. "They will not pay the price as a rule. The local proprice as a rule. The local produce houses undoubtedly can get a few boxes of the No. 1 variety, but the dealer will not take them off their hands as he would of necessity have to sell them at 70 or 80 cents a dozen to make It doesn't pay the produce house to fool with them. There are only a few persons in Santa Ana who would pay that price for oranges. Nearly everyone has a tree in his back yard.

Peddlers Sell Culls "Another thing. If there was a law prohibiting the sale of cull oranges, similiar to the law prohibiting the shipping of culls east, we probably could create a cemand for the best. Now a peddler can go to a packing house and buy 10 boxes of cull oranges and sell them for 30 or 35 cents a dozen. If we charged 70 cents for the No. 1 variety, the trade would say we were robbing them. The packing houses don't like to handle box deals when they can do business by the carload. We can get the No. 1 orange, I dare say, but we can't get rid of say, but we can't get rid of these says but we can't get rid of the says but we can't get rid of these says but we can't get rid of these says but we can't get rid of the says but we c

Others interviewed and their comment follow:

Barney Crawford (Tustin Hills particular reason why the people can't get good oranges if they want them. But the great trouble is that most of the stuff they get around here is what can't be shipped east. Most of the best fruit is shipped east and what's left is dumped on the market in California. We are now working on a plan for some way to use the culls and lower grades ir different by-products. In that way we can get the better class of fruit to our merchants. Occasionally a merchant comes out here and buys good fruit. Some have a few customers who demand No. 1 oranges and they get them. We are only too glad to see them handle first

and they get them. We are only too glad to see them handle first-class fruit.

One big problem is the peddler. He buys the culls and lower grades from us at cheap prices and then sells them at good prices. The consumer them at good prices. The consumer them in the fault with the merchap hedder. A third them are peddler. A third the sells them at good prices. The consumer them in the fault with the merchap hedder. A third the sells them at good prices. The consumer them are peddler. A third them are peddler. A third them are peddler to the sand of the pillot. It was evidently standed the peddler to the pillot. It was evidently standed the pillot. It was evidently stande

be a good idea, but it never can

People Don't Want Them company)—"There is no reason to see Santa Ana from the air last why the people of Santa Ana Sunday," he said. Week-day recan't get No. 1 oranges if they quests for flights also are increaswhy the people of Santa Ana can't get No. 1 oranges if they want them. Apparently they don't.

We have very, very few calls for "We chain Jocko to a wing and "We chain Jocko to a wing and "The chain Jocko to a wing and "We chain Jocko to a wing and "The chain Jocko to a wing and We have very, very few calls for No. 1 oranges, the reason being he amuses the passengers while that they can come out here and buy culls for 50 cents a box, where they would have to pay \$4.50 for a lose box of the No. 1 variety. There is a very limited demand for the good oranges. The cheap for the good oranges. The cheap for the good oranges. The cheap is attached to a collar around his is attached to a collar around his fruit is just as good as the best, except in appearance. I don't favor a law prohibiting the sale of except in appearance. I don't favor a law prohibiting the sale of cull oranges to the consumer in California. It would mean a hardship on those who can ill afford the prices asked for the No. 1 variety. All the good oranges are shipped east, and they will be, until the people demand the better oranges here and are willing to

W. N. Prince (W. N. Prince and Son)—"There is only one reason why the people of Santa Ana do not get the very best oranges on the market and that is because they will not pay the price. If the merchants asked a Santa Ana man to pay 80 cents a dozen for man to pay 80 cents a dozen for the best oranges, he would throw

WALL ST. JOURNAL

NEW YORK, Aug. 3.—Stocks were stimulated at the beginning of the week by extraordinary demonstrations of strength in a number of high-priced issues. Aggressive operations for the rise in General Electric and American Can created manifest nervousness among the shorts and furnished good background for sensational uprushes in stocks like General Rallway Signal. Westinghouse Airbrake and other specialties with a thin market. Stee Common was in active demand at the best levels of the present forward movement. The outstanding feature of the day was the east with which profit taking in General Electric and American Can was absorbed without checking the upward trend of thes stocks. The performance furnished rather conclusive evidence that a large amount of surplus money was still seeking employment in well established issues with prospects of increase dividends or stock distribution.

If Steal 1182 up % General Electric, 307%, up 10 %; Mack Truckson Electric, 307%, up 10 %; Mack Truckso

CORONA DEL MAR

Balboa Palisades Newport Beach, California

On last Friday we announced the last opportunity to secure beautiful CORONA DEL MAR property of the original subdividers at the remarkably low original prices and on the original liberal terms of pay-

CORONA DEL MAR (Balboa Palisades) is ideally situated on Newport Bay and the Ocean, and is traversed through its center by the newly constructed State Coast Highway.

This property is just beginning a period of intensive growth and development.

The opportunity of securing at astonishingly low prices, a summer home site, a permanent home site or a business property in a rapidly developing community, located on a paved State Coast Highway adjacent to both Orange County Harbor and the Ocean, is actually unique even in wonderful Orange County. Business lots, on the State Coast Highway and in the center of more than 1500 sold residential lots, are available as low as \$450. Residence lots \$250, \$300 and \$350.

Every development on the south coast from Long Beach to San Diego benefits this property. Every development of Newport Harbor brings great benefit to this property. The pavement of the State Coast Highway, now already graded and for which paving bids are received by the California Highway Commission today, August 3rd, and which paving is scheduled for completion this Fall will bring enormous benefit to this property. This improvement will make the property not only most accessible, but most popular, traversed by thousands daily. CORONA DEL MAR is the only town directly on the State Coast Highway between Huntington Beach and Laguna Beach, a stretch of fourteen miles, Huntington Beach being eight miles distant and Laguna Beach six miles distant.

The new water works system, unexcelled in California, has just been completed, is now being tested and will be ready to serve in September. This availability of water will start a building campaign by a fair proportion of approximately seven hundred owners of approximately nine hundred and fifty lots, which have been purchased and paid for and deeded by us to the owners.

Our original CORONA DEL MAR subdivisions contained a total of sixteen hundred and three lots, of which fourteen hundred and seventyone have been sold, thus leaving available for purchase at original and subdividers (not re-sale prices) only one hundred and thirty-two lots. Over 70% of our CORONA DEL MAR property has been purchased by residents of Orange County.

Residential Lots, \$275.00 (some lower, some higher)

Business Lots, \$18.00 to \$25.00 per front foot (all on State Coast Highway)

MARGIN OF SAFETY

EVERYMAN'S

From an investment standpoint, in choosing a preferred stock, margin of safety is more important than earnings per share, or the number of times earnings are covering dividend requirements.

Margin of safety is the percentage by which operating income

could decline and still cover divi-

dend requirements on the preferred stocks. It makes full allowance for any bonds or other senior obligations to the security under consideration, while earnings per share or the number of times earnings are covering dividend require ments do not measure the full extent of those prior obligations. For example, consider two companies in the same line of business with the same amount of total capital and the same amount of total capital and the same operating income; say \$1,000,000 in capital and \$100,000 in operating income. For illustration we will give the two companies quite different capital set ups as follows:

HAZARD & MILLER
Send for Hazards Book on Patents,

LOWERING WATER LEVELS

If anyone needed further evidence concerning the advisability of conservation of the waters of the Santa Ana river, that evidence was furnished in statistics Ana river, that evidence was furnished in statistics given the Associated Chambers of Commerce at San Juan Capistrano Thursday night of last week. These statistics, presented by Fred Ahlborn, showed that wells in which water stood at 45 feet below the surface in 1907 new record a water level of more than face in 1907 now record a water level of more than gave certain postal employes a much needed raise 100 feet. The average drop during the past two years has been 20 feet.

That the drop for the past two years has been due not only to unusually heavy pumping but also due to the fact that there has been very little water fed into the fact that there has been very little water fed into the underground gravel strata may be conceded. But it is also true that we have many new wells taking from the underground supply, and nearly every well, in dry years, is pumped longer hours and more days than in summers following ample rainfall.

There seems to us to be no solution of the problem facing the users of pumping plants other than the solution that lies in the saving of flood waters. There is no legal method by which those now using pumping plants can prevent the digging of new wells; at least, there is no organization to make use of whatever legal rights might be established by court action. We can therefore expect the number of pumping plants, all drawing from the same source, to increase. The problem will become more serious year by year. It is true that during summers following extremely wet years there may be temporary relief. In of it? The postal department means more to the such a year the water level might even rise a few feet. But the gain made that year will be quickly lost in the first dry year that comes, and the level will go down, down, down.

The whole question hinges on the matter of supply and demand. In our anxiety to develop our lands, we have known no limits in our demands. The water was there for the taking. At the same time, well and good. But if not, we should have the we have been neglectful and derelict in looking after service and be willing to pay for it. Nothing else the supply. To continue in this neglect and derelic- so vitally touches the life and prosperity of the tion, with our eyes wide open, with the record of lowering water levels before us, would be to convict ourselves of a lack of sound sense.

Eighty million more stars, most of them suns bigger than ours, will be revealed by a new telescope in Seattle, but that won't interfere with movie patronage at all.

PLACES FOR REST

Some motorists seem to be slaves of their cars. If they go on a pleasure tour they are obsessed with the urge to make as many miles as possible every day, and they drive frantically ahead, passing through many a charming town unseeing in their haste to reach another farther on before the day is over. When they get back home again they have less to say about the places they have visited than about the distance they were able to cover in a given num-

A tourist who recently drove through some lovely country on a vacation jaunt with his family had more sense about the use of his car. It was the family's means of transportation, not its stern dictator. He wrote of a typical day:

no accident. An hour before lunch time we drove drought curtailed electric power, these two com- gave Magna Charta to the world. into one of the sweetest and restfullest villages that into one of the sweetest and restruitest villages that Southern California by the rapidity with which exist anywhere. 'Alabama!' we cried—not referring they brought steam plants into use. Electric lightnot to be understood that we were in any great need able to make that statement. The state of Caliof rest; but in extremely restful places, it is the duty of the grateful human to take advantage of his op-

Perhaps the last sentence explains the whole difference between the ever-hurrying motorist and the one who makes wiser use of his car. So many motorists are not grateful humans and have no gratitude to express by taking advantage of the wondrous opportunities their cars make accessible to them.

People who took 20 years to admit that the automobile was practical are still dubious about the airplane.

SEEKING CO-OPERATION

American co-operation with the British Empire, Australian speakers tell the visiting American navy, 'will insure the peace of the world.

That is a reasonable proposition. Many an Amerilits intention to determine whether the voters of can speaker and writer has said the same thing. A lowa wanted to elect Mr. Brookhart or Mr. Steck. working combination of the United States, greatest of tion of which candidate was actually elected by a democracies, with a so-called "empire" which is really a great federation of democracies, should insure the triumph of the democratic idea upon which the World War hinged, and which is today the most insist upon technicalities. On the other hand, potent force in the world. Such a working arrangement, too, would array against possible enemies miliment, too, would array against possible enemies mili-tary and economic resources that no likely group of other nations could match. It is a natural thing, too, for these great Anglo-Saxon civilizations to face a bigger question than that of whom, under the world problems together.

Just the same, it is well not to stick so close to- quilification of its members, and this conflict begether as to bar all the rest of the world. Friendship tween the letter of the Iowa law and the clear inwith the British may be, and apparently ought to be, tentions of the Iowa voters will certainly be considered fully by the house as a whole. the cardinal principle of American foreign policy, as friendship with America is the cardinal principle of at least as valuable a senator as one elected by British foreign policy. But turning the cold shoulder to the rest of the world, while cultivating this friendship, would be to make enemies unnecessarily and invite strong combinations of other powers against

Anglo-Saxon domination. While having some particularly good friends, it is well to have good friends in every racial group and in every quarter of the world. International co-operation is a thing to be spread around.

Local weather is something that every native On the meat juices it is extremely difficult to digest.

Cabbage properly cooked is delicious, and a food resident feels free to grumble about. other hand it is something outsiders should either praise or let alone. to be set before a king. But often it is the victim of bad cooking.

REFUGE FROM TRAFFIC

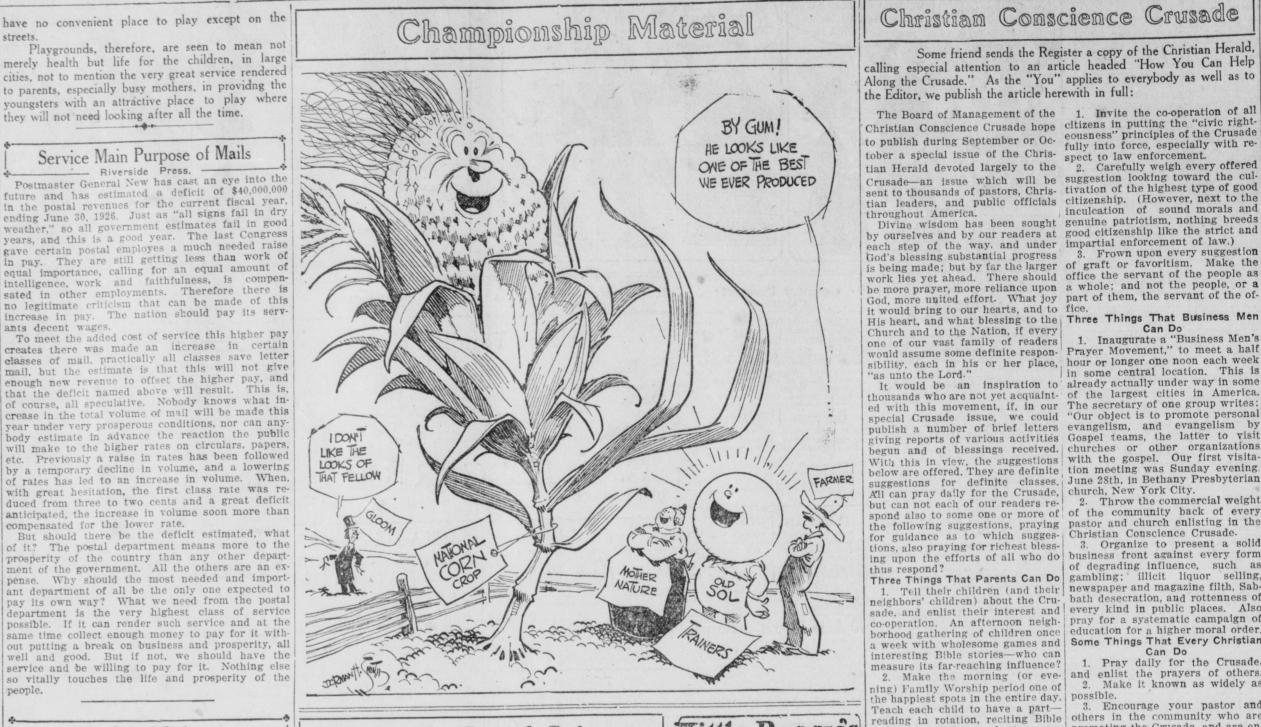

The strongest appeal for more playgrounds, in a concerned, cabbage is worth very little.

Its great value as a food lies in its ability to city already fairly well equipped in that respect, comes from an automobile association. The fact supply bulk to the intestines, for the indigestible
